# MB E-VISA SOLUTION

- Public web portal for applicants
- Online visa request via PC or mobile device
- Digital visa delivery via e-mail
- Secure communication
- Protected access for government officials

In order to facilitate visa requests and processing, the MB eVisa solution enables applicants to apply for their visa online. Instead of a visit to the embassy, they can simply follow a pre-defined workflow on a public web page, provide their personal data and upload the required documents. Intuitive user guidance ensures a convenient user experience.

Key Features

- Configuration of visa rules
- Supporting different visa types
- Collection of required data and documents
- Supporting different languages

Application Steps

- Enter personal data
- Upload scans of photo and passport
- Pay fee online
- Submit data
- Wait for approval
- Receive visa via e-mail

User Interface

With its responsive web-based design, the MB eVisa solution can be used on a variety of devices, including PCs, tablets and mobile phones. It is a user-friendly and intuitive solution where a set of guidelines helps applicants to easily and quickly finish their eVisa application.

Harmonized Platform

- Increased transparency: possibility to check the status of a request
- Streamlined visa application procedure, avoiding media discontinuity
